DANGEROUS GOODS
SAFETY ADVISER
Trident Industrial Safety Limited is a wholly owned Irish company established in 1990 and we have been delivering Dangerous Goods training courses for the last 18 years across all three major transport modes. Trident Safety has been involved with serving shippers, carriers and receivers of Dangerous Goods for over 25 years.

Over that time, Trident supported its clients with deep knowledge support in the form of Approved Training and Consultancy Services.

We believe that Effective Dangerous Goods (DG) management requires thorough knowledge of complex regulatory environments and solid experience in this detailed field of expertise.

Trident continues to be the preferred company to many national and international clients, a record of which we are extremely proud.
Many companies involved in the transport of Dangerous Goods have a legal obligation to appoint a Dangerous Goods Adviser.

This legislation applies to shippers, hauliers, forwarders, integrators and others involved with Dangerous Goods.

The functions of a **DGSA** (Dangerous Goods Safety Adviser) is to monitor and advise on compliance, in regard to the rules, concerning the transportation of Dangerous Goods and the preparation of an annual report.

Trident’s DGSA course aims to prepare delegates, to sit the detailed and time constrained Dangerous Goods Safety Adviser examination.

The State Examination consists of three papers; **The Core, Mode and Classes papers**. Delegates must pass all three papers to qualify as a DGSA. The DGSA Exam is an open book examination. The Qualification is valid for five years.

Our DGSA course is set over **five full days**. Four consecutive days cover the main body of the course and the 5th day is reserved for pre-test examination, questions and answers. The cost of the course is **€1500.00** per person.

Delegates will require the current ADR Regulation Volume I & II as part of the course literature, to sit the course and the examination.
PACKAGING
Our innovative company design creates the best packaging to ensure the safety and security of your DG shipments.

CONSULTING
Trident DG experts will guide you through the detailed area of dangerous goods regulations and their impact upon your industry with our Dangerous Goods Consultancy Services.

TRAINING
